INTEGRATOR MODEL

# One supplier. An entire network working for your company.

Sourcing supplies and services for a plant means onboarding, evaluating and coordinating dozens of suppliers. As an integrator, we do that work for you: your purchasing team deals with a single supplier, and we coordinate our network of manufacturers, specialists and partners across the region.

**Your company**
One request, one purchase order, one contact

→

**PlastiCycle BJX**
We quote, coordinate, deliver and invoice

→

**Our network**
Certified local suppliers and strategic partners

## WHAT YOUR PURCHASING TEAM GAINS

**Single supplier onboarding**
No need to register, evaluate and follow up with multiple suppliers.

**Single point of contact**
Quotes, orders and deliveries across categories handled by one team.

**Documentation in order**
A formal business relationship with proper invoicing and paperwork.

**Logistics backing**
Our own fleet, scheduled pickups and deliveries, and warehouse space.

**Environmental commitment**
Zero-landfill recycling and reuse processes that strengthen your corporate image.

**Local talent**
Bajío suppliers with the responsiveness and proximity your operation needs.

## We team up with local businesses

We bring small and mid-sized regional companies into our network and give them logistics, financial and documentation support so they can serve large corporations. This is how we connect local talent with industry, with the formality your purchasing team requires.

Are you a local supplier? Join our network

# Our services

Tap any service to jump straight to its section.

We are an integrator company created to deliver solutions to industry in the Bajío region. Through our network of certified local suppliers and strategic alliances, we bring together in a single business relationship what your company currently buys from many.

Contact us

# 01 Scrap purchasing

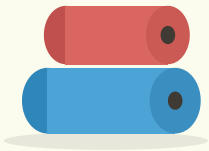

We buy your industrial waste

We buy your scrap responsibly: nothing ever goes to landfill. We help you avoid environmental impact, disposal costs and waste manifests, while building a recycling culture through our reuse processes.

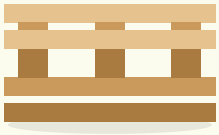

1. We quote the material
2. We define the logistics plan
3. We send you a purchase offer

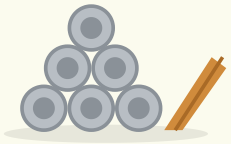

✓ Plastics

✓ Textiles

✓ Wood

✓ Metals

## Benefits for your company

- ✓ You avoid creating environmental impact.
- ✓ Purchase-sale without reclassifying materials as scrap; only their value is adjusted for invoicing.
- ✓ You improve your corporate image.
- ✓ You avoid disposal costs and waste manifests.
- ✓ A recycling culture through our reuse processes.

# 02 Wooden pallets, boxes and crates

Custom manufacturing and purchasing

We manufacture new and recycled wooden pallets in any size and to any specification. 14 years of experience in custom pallet manufacturing, collection, transportation, sorting, and the purchase, sale and reuse of recycled pallets.

- ✓ HT (heat treatment)
- ✓ Fumigation
- ✓ Notching
- ✓ Serial numbering
- ✓ Stamps
- ✓ Up to 1,400 pallets per day

## PRODUCTS

- ✓ **Custom pallets**
  New and recycled wood, in different sizes
- ✓ **Boxes and crates**
  Made to measure
- ✓ **Special packaging projects**
  Dunnage, boxes, etc. Custom developed
- ✓ **Recycled pallet trading**
  Collection, transportation, sorting and reuse

## MATERIALS

- ✓ **Pine wood**
  New or recycled, special grade
- ✓ **Components**
  Blocks, slats, stringers and plywood
